The CIA representative suggested the revision of certain paragraphs in the draft of the NSC determination before its declassification. Some but not all of the language in question was deleted. He also objected to the unqualified statements that certain Indian and Chilean exports were not going to the Soviet bloc and proposed the addition of the word "directly". None of the members of the Committee apparently had seen any of the intelligence information which has been disseminated to IAC agencies regarding transshipment of Chilean copper to the bloc. Even the State and Defense members

██████████ attended meeting of R PROCEDURE SUBCOMMITTEE at which CASES INVOLVING UNICEF ORDERS FOR BULGARIA, CZECHOSLOVAKIA AND POLAND: HARDNESS TESTING EQUIPMENT FOR BELGIUM; STEEL STRIP MEASURING GAUGES AND GERMANIUM CRYSTAL DIODES FOR WEST GERMANY, AND ETHYL CELLULOSE AND CONDENSER TISSUE FOR AUSTRIA WERE CONSIDERED. The CIA representative presented intelligence based on D/A's Suspect Trader List showing that certain of the consignees in Austria and Germany were believed to be firms which delivered strategic items to the East. The State Department representative took the position that West German production is essential to the NATO program and that US deliveries of strategic equipment and materials to German firms are essential for the success of the NATO program, regardless of the fact that such firms are concurrently delivering a small percentage of their production to Soviet destinations. The Committee recommended that in such instances CIA information must be made available to licensing authorities in Germany and Austria. (2 hrs) (26 June)
